

## Swimming Pool Refurbishment, Rishworth Swimming Baths, North Yorkshire

"Damp uneven stone walls"!!. A typical scenario for these "old buildings". New framework constructed to all walls up to 8 metres high to existing walls. Hygenics own "Strip Clad" flush fitting tongue and groove pvc planks then installed covering approximately 800 square metres. 2 x dado rails in light blue and dark blue added for the "aesthetic look". "Brilliant job" says paul.
